ADMISSION SCORES OF THE USMA CLASS OF 1979,
Report No. 9Bl.01-76-005
Project No. 206
Prepared by: 10 John W. Houston
November 1975

11 Nov 75
ABSTRACT

The purpose of this report is to bring together, for research and information purposes, the summary statistics of the admission scores of the candidates and cadets--Class of 1979. The distributions of scores are shown for six (6) categories of candidates, including decliners and minority group members; and five (5) categories of admitted cadets, including black cadets, other minorities, graduates of the US Military Academy Preparatory School, and recognized athletes. Bivariate frequency breakouts (CEER and ACEER versus PAE) are also shown for the same categories of candidates and cadets.

12 31
NOTE: Any conclusions in this report are not to be construed as official U. S. Military Academy or Department of the Army positions unless so designated by other authorized documents.

DISTRIBUTION: This document is prepared for official purposes only. Its contents may not be reproduced or distributed (in whole or in part) without specific permission of the Superintendent, U. S. Military Academy, in each instance.

INTRODUCTION

Since many candidates for the Class of 1979 had both College Board Scores and American College Test Scores (CEER and ACEER), each candidate was evaluated for admission using the higher score. However, most candidates have only the CEER or the ACEER.

Tables 1A through 12A show the scores for the various categories of candidates and cadets who were evaluated for admission using CEER.

Tables 1B through 12B show similar scores for those who were evaluated using ACEER. For example, Table 4A shows the scores of the 1039 cadets who were admitted using CEER, and Table 4B shows the scores of the 394 cadets who were admitted using ACEER. The sum of these two gives the total of the admitted class: 1433. If a candidate took both the College Board tests and the American College Testing Assessment Program tests, both scores are included in Table 1C.

Tables 13A through 23A give frequency breakouts on CEER and PAE scores for candidates to the Class of 1979 who were evaluated for admission using CEER. Tables 13B through 23B give similar breakouts on ACEER and PAE scores for candidates to the Class of 1979 who were evaluated for admission using ACEER. Percentages on each table represent the percent of the total to be found in each of the nine cells.

All data were obtained from the Pre-cadet Master File.

The following abbreviations apply to this report:

ACEER:	A weighted composite score of three ACT tests and a standardized High School Rank score.
ACT-EN:	American College Test, English.
ACT-MA:	American College Test, Mathematics.
ACT-NA:	American College Test, Natural Science.
CEER:	A weighted composite score of two College Entrance Examination Board tests and a standardized High School Rank score.
HSR:	High School Rank, a score derived by converting the actual high school rank to a standard score.
LPS:	Leadership Potential Score.
PAE:	Physical Aptitude Examination.
SAT-M:	Scholastic Aptitude Test-Mathematics.
SAT-V:	Scholastic Aptitude Test-Verbal.
WMS:	Whole Man Score, a weighted composite score of the CEER (or ACEER), LPS and PAE.

20. ABSTRACT (Continue on reverse side if necessary and identify by block number) The purpose of this report is to bring together, for research and information purposes, the summary statistics of the admission scores of the candidates and cadets--Class of 1979. The distributions of scores are shown for six (6) categories of candidates, including decliners and minority group members; and five (5) categories of admitted cadets, including black cadets, other minorities, graduates of the US Military Academy Preparatory School, and recognized athletes. Bivariate frequency breakouts (CEER and ACEER versus PAE) are also shown for the same categories of candidates and cadets.
